ID intern, Microsoft Research Asia, Beijing

Involved in the two designs of robot, the Magic Radio and BB-8 Accessories, responsible for product design and interaction design.

July, 2014-Aug., 2014

Exchange student, University of Navarra in Spain

Worked with local bicycle manufacturers to design bicycle accessories

July, 2015-Aug., 2015

Exchange student, Southern Taiwan University of Technology

Redesigned the product according to the local bamboo handmade craft.

AWARDS

2013 - 2016

I won more than 20 awards in domestic and international industrial design competitions. International awards are as follows:

- 5 Red Dot design concept awards, 2 best of best, included
- 1 iF concept award
- 1 The Young Asian Designers award

Aug., 2013

Major Award

For top 1 student at industrial design of Zhejiang University

May, 2015

Outstanding Graduates

For top 10% graduate students in Zhejiang University

2012 - 2015

During my undergraduate period, I was active in the entrepreneurial team. Our team-Yunmake has been recognized inside and outside:

First prize

Dandelion Venture Contest of Zhejiang University

Outstanding Award

Zhejiang Province, the Challenge Cup Competition

Gold prize

the Challenge Cup Competition National College Student Business Plan

July, 2016

Winner in MSRA 2016 //oneweek Hackathon

PUBLICATIONS

May, 2016

2016 CHI Conference Extended Abstracts:

CompuWoven: A Computer-Aided Fabrication Approach to Hand-Woven Craft

May, 2017

2017 CHI Conference :

WeaveMesh: A Low-Fidelity and Low-Cost Prototyping Approach for 3D Models Created by Flexible Assembly

Oct., 2013

China Invention Patents

Method for anti-theft in luggage.

June, 2014

China Invention Patents

Method for folding electric vehicle.

Nov., 2014

China Invention Patents

Method for balance car.

Jan., 2016

China Invention Patents

An integrated composite chair.

Jan, 2016

China Invention Patents

Method for trousers with magnet.
